~Amanda Moorhead, Copywriter, Jackson

“When Andy takes on a project she turns it upside down and sideways, coming back with smart, persuasive copy that often out-thinks the creative brief. She’s an imaginative, conceptual collaborator and has a gift for simplifying complicated information for the masses. Plus, she does some hilarious cartoon voices.”

Wrote lots of words for print, packaging, the web, email, paid social, and display. Companies include:

UserVoice • May 2012 - March 2013

Obsessed over words for case studies, email campaigns, blog posts, print and event promotions, even a few press releases. But mostly I worked with the head of UX to redesign and write copy for the UserVoice website.
